

How To Insure Your Belongings

You wouldn't think of leaving your precious goods uninsured at home. The same applies to goods in self storage.

Even with EasyStor's enviable record of safety and security, accidents can occur for reasons beyond anyone's control. Fire, theft and storm damage can happen in your home, they can happen in our yard, or storage building also.

For this reason, we advise you to organize self storage insurance. If your property is worth storing - it's worth insuring.

EasyStor insures their sites, but not your goods. The items you place in self storage are your sole responsibility and should always be insured. We recommend that while you have the EasyStor portable at your site, you go through your insurance broker to cover the contents of the portable. Once the portable is in our compound or storage building, you may not be covered by your insurance company. If not, you can access an insurance benefit we have available for our customers as an option from PalCanada Insurance. All you have to do is go online to www.palcanada.com for a quotation or you can contact your local insurance broker to contact Pal Canada for you. Tell them you want All Risks/Replacement Cost on your contents.
